DANIEL STEWART, the proprietor of a coffee house in the Thirteenth ward, was before the Police Court, yesterday, and sentenced to pay a fine of fifty dollars and costs, and imprisonment in the city prison for five days. Two females, boarders at Stewart's delectable institution, were sent to the city prison for ten days recreation.

ALL notes of issue of the Seneca County Bank must be put into the hands of Mr. Claypople, at Columbus, on or before the 11th March, 1860. Those who return bills on this bank a day later, will find, to their loss, that n every sense of the word, they are worthless. It is the decided advice of Mr. Claypoole to those who hold such bills not to sacrifice them, as they will, probably, bring their full value.

MAP OF THE SEAT OF WAR .- Mr. Mack R Barnitz, our enterprising publishing fellow citizen at 38 and 40 West Fourth, has just is sued a large map of Northern; and Sentral Italy, embellished with portraits of Victor Emanuel, of Sardinia, and Francis Joseph, of Austria, and rendered additionally interesting by a brief letter-press description of the region within which, it is presumed, the war will be confined. The places at which the French entered Italy are pointed out, as well as the points on the Ticino where the Austrians first crossed into Piedmont. Besides the principal map, there is on the same sheeta map of Europe, on a smaller scale, which is added for the purpose of showing the relative positions the belligerent countries bear toward the other countries of Europe. The map will, assuredly, have an extensive sale.

Jour S. Drs Tenned Ur. The following from the Ecston Atlas, headed "attempt to levy black mail apon a New England Bank," will be interesting to some in this city. The follow-ing statement has been sent in with a request to publish: Some months ago, the Weare Bank, of Hampton Falls, N. H., was notified that a demand had been made by Anastasius Nicholas, of No. 70 Wall street, New York city, that \$1,000 should be deposited in a designated place in that city, or the Bank would be diseredited. Nat long after, J. Tyler Biodges wrote to the Weare Bank that, from what he had heard, he should discredit the Bank unless he heard from them immediately. Some days since, the President of the Bank received a letter from one John S. Dwe, purporting to come from the office of "Dye's Wall Street the ovil had been exaggerated, and we are glad to know that that opinion is true.]

Brokers," all of which were intended to levy black mail. In a statement the President, Goo. H. Dodge, says that the Bank has never met with serious losses, that the alleged action of the Brokers, and illegally appropriated the movement, and the pulpit talents of the popular pastor, may draw many to the Opera House on the Sabbath, who would not go to any of our focuses of worship. And they breakly a fancy to a fine saddle horse, the property of M. B. Greamer, and illegally appropriated the awakening and conversion of souls. We report to the fine movement, and the pulpit talents of the movement, and the pulpit talents of the popular pastor, may draw many to the Opera House on the Sabbath, who would not go to any of our focuses of worship. And they breakly a faithful preaching of the truth, aided by the prayers of Christians, may be blessed of the drop in the awakening and conversion of souls. We regard the intorest, and hope that Christians of various parces will try to attand these services, in order to encourage the Vine-street Church and their pastor in this labor of love.—Central Heralt. INDIAN QUEEN-COFFEE SALOON ALTER & WILSON, Architects, S.

EXTENSIVE arrangements have been made by the Masonic Fraternity, in and about Lynch burgh, Highland county, Ohio, properly to celbrate the approaching "St. John" day-an anniversary which in all lands, and for all time, will be observed by the brethren of the Mystic Tio. The Committee of Arrangements, John Woodson, Chairman, announces that the Festival of St. John the Baptist, will take place at Lynchburg, on Friday, June 24th, in a beautiful grove near the town, under the direction of Lodge No. 178. Prof. E. S. Lippett, of Cincinnati, will deliver an Oration. The care of Marietta & Cincinnati Railroad Company, will leave the L. M. R. R. depot, of this city, at 6 15 A. M., of that day. Half fare tickets can be secured on application at the offices of the Company, at respective stations. The social feature of this festival will be charming to city folks. It will be an independent Basket Pic-nic-each taking wife or sweetheart-and victuals to suit.

It is but justice to our city to say, that a grumbler of Chicago writing in the Press and Tribune, could not have been one of the fortunate ones, or he would not have charged Cin cinnati with neglecting guests, by publishing a proffer of tickets to National Theater, and not delivering them to the excursionists from Chicago. One hundred and twenty four tickets were delivered to the railroad guests at the Burnet House, and but one ticket was left at the office uncalled for at ten o'clock at night. A member of the City Council personally distributed a large number, and a card at the hotel advised the excursionists that tickets were for free distribution at the office. Let us bear no more complaint.

In the City Prison, at the close of the week there were 115 prisoners, (45 of them females, against 130 the previous week. During the past week 70 prisoners were discharged.

In the County Jail there were 8 lunatics, 22 females, 5 on bread and water, 34 on Chaingang, 46 in main jail-115 in all, against 405 the previous week.

At the Commercial Hospital, 27 persons were admitted during the week, 26 discharged, none born, and I died-Bornard Treiss. In the Hospital last evening, 145 patients were under treatment, against 145 the previous week.

At the close of the past week there was not a single case of small-pox in the Pest-house.

THE Union Agricultural Society, of Greenfield, Obio, request us to state (and thus oblige the Society) that their Second Annual Fair will be held on the 13th and 14th of October next. They say, moreover, that "the fair grounds situated north of Greenfield are conceded by all visitors to be among the finest in the State, and the Society will make all possible additions to accommodate an immense crowd next October. Besides new buildings, and arrangements for supplies of water, the Society is putting up an amphitheater of seats, so that the concourse may have a good view of all exhibitions in the driving ring."

Is a paragraph which dropt from our pen the other day, respecting "our railroad neigh bor, the capital of Greene county," we stated that " Xenia affords a daily newspaper," and that the "county of Greene has twenty-nine of her sons in the ministry." These statements the Xenia news corrects:

"All right, Mr. Press, so far as the importance of Xenia is concerned, but not quite s prrect on matters of less moment. did afford a daily paper, and afforded it well, during a "convention of a large religious body;" but the occasion for a daily has ed away, and the daily has passed it. Then Xenia has treble or quadruple the number mentioned (twenty-nine) of her sons in the ministry. That is the number in one denomination out of the twenty-five represented in the county, and not even the whole number in that denomination."

IMPORTANCE OF SETTING A GOOD EXAMPLE. AN AQUEOUS QUARTETTE AFTER THE CINCINNATI FASHION .- The St. Louis Democrat of Friday,

A fire occurred on Franklin Avenue, between Fifteenth and Sixteenth streets, yesterday, in a new building, which is being moved into, by Mr. Simon Bell, who intends using the store as a boot and shoe establishment. The fire broke out in the cellar from a pile of

shavings that had been carelessly left there The steam fire engines Union, Missouri, Deluge and Kyler were promptly on hand, and the only damage sustained was the leaving of the cellar half full of water by the engines.

To Circinnati is to be ascribed the praise of having revolutionized the Fire Department by the introduction of Steam Fire Engines; and St. Louis has, we doubt not, found out long ere this, the value of having adopted them. Those cities not yet furnished with Steam Fire Engines, should procure them without unnecessary delay.

ONE of the frest-bitten correspondents of our neighbor, the Gazette, hailing from Cambridge City, Indiana, is thus handled by the Bulletin: His communication is almost entirely with ont a vestige of truth, as our readers are aware, and must have been written by a graduate of some Insane Asylum, or one whose chances of information have certainly been very limited.

He says the "garden products, such as cucumbers, beans, &c., are totally killed." Now there never was anything more untrue than the above, and if "A." will look around and examine the gardens in this vicinity, as he should have done prior to penning this falsehood, he will find that not more than one-fourth of the gardens have been touched, much loss injured by the late frost.

We can't imagine who this cold, frozen-hearted, pumpkin-headed, magnifying numb-skull of a croaker is. We have con-versed with gentlemen who have traveled over the entire county since Saturday, and who state that there is no more replanting being done than is usual at this season of the year, and that the generality of the crops never looked finer or promised a better yield.

AMERICAN CONSECURATION IN ENGLAND,-

1853, by the request of the Archbishop of Can-terbury, Bishop McIlvaine was the first who assisted in the consecration of a Bishop of the

Church of England, Dr. Jackson, the present Bishop of Lincoln. This was the first even tof the kind. And while we are about it, we may just state another from our chapter of ecclesias

tical reminiscences. The Hishopof Ohio was the first American of any order or position that

Four Eyes .- The New York Post has dis

covered a man in that city with a double pair

of peepers—one pair in the usual place, one on either side of his masal protuberance, and the other pair in the back of his head. The poll is described as being flat. Theowher of the

eyes has kept his singular endowment a secret until the present; and what is more singular still, he has acquired property—not from the advantage nature has given him over others;

but by honest, inhorious industry. His hair, which he always were long, covered the posterior oculars from observation. The Post fails to explain how the fact could have been kept a

secret, when it must have been known to the mother, sisters, aunts, and other female rela

tives, while the polar eyes were growing from infantile to their present full-grown size.

FREE NEGROES OF MARYLAND .- The Slave

holders' Convention at Baltimore devoted the second day of the meeting to a discussion of

the question whether the eighty thousand fre

negroes of Maryland should be expelled from

the State. Resolutions bearing upon this sub-ject had been sent to the Committee on Reso-

lutions, and two reports were offered by that Committee. Mr. F. W. Jacobs, of Worcester

report strongly urged the expulsion of the free colored population, by the gradual operation o

laws to be passed for that purpose, and the prohi-bition of further emandipation. "Free negroism"

according to Mr. Jacobs, is exercising a per-nicious influence upon the interests of the slaveholders, and he proposes to derive coun-tenance for his scheme from the policy pursued.

by some of the Free States toward their black population. The majority of the Com-mittee, however, through Ex-Senator Pearce, took opposite ground. Their report repre-sented that may satempt to remove the free blacks, would be not only impracticable, but highly inexpedient.

PREACHING IN THE CINCINNATI OPERA HOUSE

The biject of the church in this enterprise is to do what they can to bring the Gospel to the unevangel-ised masses of our city population—to meet those who are not in the habit of going to church, and are indisposed to go there, in their own chosen place of resort. It is their hope that the convenience of the place, the fact that all can most there on a common level, the nov-city of the movement, and the pulpit falents of their popular paster, may draw many to the
